- Prefer wood from well managed forests, certified according to the Forest Stewardship Council (FSC) or the Programme for the Endorsement of Forest Certification schemes (PEFC) forest certification systems;
- Implement its best efforts to avoid trading and sourcing wood from the following categories:
  - Illegally harvested wood;
  - Wood harvested in violation of traditional and civil rights;
  - Wood harvested in forests where high conservation values are threatened by management activities;
  - Wood harvested in forests being converted to plantations or non- forest use;
  - Wood from forests in which genetically modified trees are planted.
- Receive and reply to questions placed by its stakeholders.
